

We are Qorvo®

Core RF and Power Solutions

Qorvo At-A-Glance

- 8,400 global employees
- Trailing 12-month revenue: \$4.65 billion
- Nasdaq: QRVO
- Innovative, core radio frequency (RF) and power solutions
- Offering competitive advantages in manufacturing, product and technology leadership, engineering, customer relationships
- Providing solutions for three key markets: mobile, infrastructure & defense

Qorvo brings unique expertise to 5G and Wi-Fi networks, the IoT and other emerging applications that connect people, places and things. Qorvo technology and products enable global connections with more data capacity and always-on reliability. Whether for mobile devices, communications infrastructure or defense systems, Qorvo has the design, manufacturing, applications engineering and global resources to serve the world's leading customers.

Key Applications Automotive | Biotechnologies | CATV Networks | 4G & 5G Cellular Networks | Customer Premises Equipment (Wi-Fi Set-top Boxes & Gateways/Routers | Data Storage | Defense & Aerospace | Enterprise Networks (Wi-Fi Access Points) | Electric Vehicle | Human-Machine Interface (HMI) | Industrial Power | Intelligent Motor Control | IoT Networking & End-Nodes (Bluetooth®, Zigbee & Matter) | Mobile Devices | NB-IoT | Radar | Satellites

Key Products Amplifiers | Analog/Mixed-signal Power Solutions | Antenna Control Solutions | Communication SoCs (Systems on a Chip) | Control Products | Discrete Components | Filters & Duplexers | Frequency Converters | Integrated Modules | Mobile Wi-Fi Solutions | Multiplexers | Oscillators | RF Fusion™ & RF Flex™ Solutions | RF MEMS | Silicon Carbide FETs & JFETs | Switches | Ultra-wideband (UWB) Solutions

Centered on Customers

Qorvo helps customers by solving RF and power complexity. Only Qorvo offers all core technologies needed to deliver highly integrated solutions that Connect, Protect and Power™ the world. The company brings 30+ years of end-to-end expertise, from the network to the device.

Innovation at Its Core

Qorvo brings unique strengths to innovative solutions for diverse, high-growth segments of large global markets. The company enjoys multiple, long-term growth drivers to address opportunities in Wi-Fi, 5G, gallium nitride (GaN), and the Internet of Things (IoT).

Our robust technology portfolio enables Qorvo to best deliver a variety of integrated modules.

Manufacturing Scale

Support large customers with high-volume manufacturing expertise

Product Leadership

Design and build high-value RF and power solutions to stringent customer demands

Systems Knowledge

Diverse engineering expertise spanning process, product and packaging technologies

Customer Relationships

Trusted supplier capable of solving customers' largest technical challenges
