Qorvo supplies innovative semiconductor solutions that make a better world possible. Qorvo technology and products enable global connections with more data capacity, higher efficiency and always-on reliability. Whether for mobile devices, network infrastructure or defense systems, Qorvo has the design, manufacturing, applications engineering and global resources to serve the world’s leading customers.

Centered on Customers
Qorvo helps customers by solving RF and power complexity. Only Qorvo offers all core technologies needed to deliver highly integrated solutions that help connect, protect and power the planet. The company brings 30+ years of end-to-end expertise, from the network to the device.

Centered on Innovation
Qorvo brings unique strengths to innovative solutions for diverse, high-growth segments of large global markets. The company enjoys multiple, long-term growth drivers to address opportunities in consumer electronics, smart home/IoT, automotive, EVs, battery-powered appliances, network infrastructure, healthcare and aerospace/defense.

Manufacturing Scale
Support large customers with high-volume manufacturing expertise

Product Leadership
Design and build high-value RF and power solutions to stringent customer demands

Systems Knowledge
Diverse engineering expertise spanning process, product and packaging technologies

Customer Relationships
Trusted supplier capable of solving customers’ largest technical challenges

Qorvo At-A-Glance
- 8,900 global employees
- Fiscal year 2022 revenue: $4.65 billion
- Nasdaq: QRVO
- Innovative connectivity and power solutions
- Competitive advantages in manufacturing, product and technology leadership, engineering, customer relationships
- Providing solutions for diverse, high-growth segments of large global markets

Key Amplifiers | Analog/Mixed-signal Power Solutions | Antenna Control Products Solutions | Communication SoCs (Systems on a Chip) | Control Products | Discrete Components | Filters & Duplexers | Frequency Converters | Integrated Modules | Mobile Wi-Fi Solutions | Multiplexers | Oscillators | RF Fusion™ & RF Flex™ Solutions | RF MEMS | Silicon Carbide FETs & JFETs | Switches | Ultra-wideband (UWB) Solutions

Our robust technology portfolio enables Qorvo to best deliver a variety of integrated modules.
