NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The accompanying Condensed Consolidated Financial Statements of Qorvo, Inc. and Subsidiaries (together, the "Company" or "Qorvo") have been prepared in conformity with accounting principles generally accepted in the United States ("U.S. GAAP"). The preparation of these financial statements requires management to make estimates and assumptions, which could differ materially from actual results. In addition, certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed, or omitted, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). In the opinion of management, the financial statements include all adjustments (which are of a normal and recurring nature) necessary for the fair presentation of the results of the interim periods presented. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in Qorvo's Annual Report on Form 10-K for the fiscal year ended April 3, 2021.

The Condensed Consolidated Financial Statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. Certain items in the fiscal 2021 financial statements have been reclassified to conform with the fiscal 2022 presentation.

The Company uses a 52- or 53-week fiscal year ending on the Saturday closest to March 31 of each year. Each fiscal year, the first quarter ends on the Saturday closest to June 30, the second quarter ends on the Saturday closest to September 30 and the third quarter ends on the Saturday closest to December 31. Fiscal 2022 is a 52-week year, and fiscal 2021 was a 53-week year; however, the first quarters of both fiscal years 2022 and 2021 included 13 weeks. Fiscal years including 53-weeks occur approximately every five or six years.

2. RECENT ACCOUNTING PRONOUNCEMENTS

In December 2019, the FASB issued Accounting Standards Update ("ASU") 2019-12, "*Simplifying the Accounting for Income Taxes*," which eliminates certain exceptions within Accounting Standards Codification Topic 740, *"Income Taxes*" and clarifies and simplifies other aspects of the current accounting guidance. The Company adopted this standard in the first quarter of fiscal 2022, and it did not have a material impact on the Company's consolidated financial statements.

3. INVENTORIES

4. BUSINESS ACQUISITIONS

NextInput, Inc.

On April 5, 2021, the Company acquired all of the outstanding equity interests of NextInput, Inc. ("NextInput"), a leader in microelectromechanical system ("MEMS")-based sensing solutions, for a total cash purchase price of \$173.4 million. The acquisition expands the Company's offerings of MEMS-based products for mobile applications and provides comprehensive sensing solution opportunities for a broad range of applications in other markets.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued) (Unaudited)

The purchase price was preliminarily allocated based on the estimated fair values of the assets acquired and liabilities assumed as follows (in thousands):

Intangible assets	\$ 81,000
Goodwill	93,998
Net tangible assets (1)	8,441
Deferred tax liability, net	(10,070)
Total purchase price	\$ 173,369

⁽¹⁾ Includes cash acquired of \$5.8 million.

The more significant intangible assets acquired included developed technology of \$73.0 million and customer relationships of \$7.5 million.

The fair value of the developed technology acquired was determined based on an income approach using the "excess earnings method" which estimated the value of the intangible asset by discounting the future projected earnings of the asset to present value as of the valuation date. The acquired developed technology asset is being amortized on a straight-line basis over its estimated useful life of seven years.

The fair value of the customer relationships acquired was determined based on an income approach using the "with and without method" in which the value of the intangible asset is determined by the difference in discounted cash flows of the profitability of the Company "with" the asset and the profitability of the Company "without" the asset. These customer relationships are being amortized on a straight-line basis over their estimated useful life of one year.

The Company will continue to evaluate certain assets, liabilities and tax estimates over the measurement period (up to one year from the acquisition date). The goodwill resulting from the acquisition of NextInput is attributed to synergies and other benefits that are expected to be generated from this transaction and is not deductible for income tax purposes.

The operating results of NextInput were not material and have been included in the Company's condensed consolidated financial statements as of the acquisition date. During the three months ended July 3, 2021, the Company recorded acquisition and integration related costs associated with the acquisition of NextInput totaling \$1.2 million in "Other operating expense" in the Condensed Consolidated Statement of Income.

7Hugs Labs S.A.S.

On October 1, 2020, the Company acquired all of the outstanding equity interests of 7Hugs Labs S.A.S. ("7Hugs"), a private developer of Ultra Wideband ("UWB") software and solutions, for a total cash purchase price of \$48.7 million. The acquisition supports the ongoing development and adoption of the Company's UWB products and solutions.

During the three months ended July 3, 2021, the Company recognized a decrease to goodwill of approximately \$0.2 million as a result of purchase price allocation adjustments. The Company will continue to evaluate certain assets, liabilities and tax estimates over the measurement period (up to one year from the acquisition date).

At the beginning of each fiscal year, the Company removes the gross asset and accumulated amortization amounts of intangible assets that have reached the end of their useful lives and have been fully amortized. 6. INVESTMENTS AND FAIR VALUE OF FINANCIAL INSTRUMENTS

Equity Method Investments

The Company invests in limited partnerships and accounts for these investments using the equity method. The carrying amounts of these investments as of July 3, 2021, and April 3, 2021, were \$40.4 million and \$29.8 million, respectively, and are classified as "Long-term investments" in the Condensed Consolidated Balance Sheets. During the three months ended July 3, 2021, and June 27, 2020, the Company recorded income of \$14.5 million and \$15.7 million, respectively, based on its share of the limited partnerships' earnings. These amounts are included in "Other income, net" in the Condensed Consolidated Statements of Income. During the three months ended July 3, 2021, the Company received cash distributions of \$3.9 million from these equity method investments. The distributions were recognized as a reduction to the carrying value of the investment, the majority of which represented a return of investment in cash flows from investing activities. There were no cash distributions received during the three months ended June 27, 2020.

The 2020 Credit Agreement amended and restated the previous credit agreement dated as of December 5, 2017 (the "2017 Credit Agreement"). The 2020 Credit Agreement includes a senior term loan (the "2020 Term Loan") of up to \$200.0 million and a senior revolving line of credit (the "Revolving Facility") of up to \$300.0 million. The 2019 Indenture contains customary events of default, including payment default, failure to provide certain notices thereunder and certain provisions related to bankruptcy events and also contains customary negative covenants.

Fair Value of Debt

The Company's debt is carried at amortized cost and is measured at fair value quarterly for disclosure purposes. The estimated fair value of the 2029 Notes and the 2031 Notes as of July 3, 2021, was \$926.5 million and \$731.2 million, respectively (compared to the outstanding principal amount of \$850.0 million and \$700.0 million, respectively). The estimated fair value of the 2029 Notes and the 2031 Notes as of April 3, 2021, was \$905.3 million and \$689.5 million, respectively (compared to the outstanding principal amount of \$850.0 million, respectively (compared to the outstanding principal amount of \$850.0 million, respectively). The company considers its debt to be Level 2 in the fair value hierarchy. Fair values are estimated based on quoted market prices for identical or similar instruments. The 2029 Notes and the 2031 Notes currently trade over the counter, and the fair values were estimated based upon the value of the last trade at the end of the period.

The 2020 Term Loan carries a variable interest rate set at current market rates, and as such, the fair value of the 2020 Term Loan approximated carrying value as of July 3, 2021 and April 3, 2021.

Interest Expense

8. STOCK REPURCHASES

On May 5, 2021, the Company announced that its Board of Directors authorized a new share repurchase program to repurchase up to \$2.0 billion of the Company's outstanding common stock, which included approximately \$236.9 million authorized under the prior program terminated concurrent with the new authorization. Under this new program, share repurchases are made in accordance with applicable securities laws on the open market or in privately negotiated transactions. The extent to which the Company repurchases its shares, the number of shares and the timing of any repurchases depends on general market conditions, regulatory requirements, alternative investment opportunities and other considerations. The program does not require the Company to repurchase a minimum number of shares, does not have a fixed term, and may be modified, suspended or terminated at any time without prior notice.

During the three months ended July 3, 2021, the Company repurchased approximately 1.7 million shares of its common stock for approximately \$300.0 million, including transaction costs, under the prior and current share repurchase programs. As of July 3, 2021, approximately \$1,714.0 million remained available for repurchases under the current share repurchase program.

During the three months ended June 27, 2020, the Company repurchased approximately 0.7 million shares of its common stock for approximately \$75.0 million, including transaction costs, under the prior repurchase program.

9. COMMITMENTS AND CONTINGENT LIABILITIES

Legal Matters

The Company is involved in various legal proceedings and claims that have arisen in the ordinary course of business that have not been fully adjudicated. The Company accrues a liability for legal contingencies when it believes that it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. The Company regularly evaluates developments in its legal matters that could affect the amount of the previously accrued liability and records adjustments as appropriate. Although it is not possible to predict with certainty the outcome of the unresolved legal matters, it is the opinion of management that these matters will not, individually or in the aggregate, have a material adverse effect on the Company's consolidated financial position or results of operations. The aggregate range of reasonably possible losses in excess of accrued liabilities, if any, associated with these unresolved legal matters is not material.

10. REVENUE

The following table presents the Company's revenue disaggregated by geography, based on the location of the customers' headquarters (in thousands):

11. OPERATING SEGMENT INFORMATION

The Company's operating and reportable segments are Mobile Products ("MP") and Infrastructure and Defense Products ("IDP") based on the organizational structure and information reviewed by the Company's Chief Executive Officer, who is the Company's chief operating decision maker ("CODM"), and these segments are managed separately based on the end markets and applications they support. The CODM allocates resources and assesses the performance of each operating segment primarily based on operating income.

MP is a global supplier of cellular, UWB, Wi-Fi and other solutions for a variety of applications, including smartphones, wearables, laptops, tablets and Internet of Things ("IoT").

IDP is a global supplier of RF, system-on-a-chip and power management solutions for applications in wireless infrastructure, defense, Wi-Fi, smart home, automotive and IoT.

The "All other" category includes operating expenses such as stock-based compensation, amortization of intangible assets, acquisition and integration related costs, restructuring related charges, start-up costs, (loss) gain on assets, and other miscellaneous corporate overhead expenses that the Company does not allocate to its reportable segments because these expenses are not included in the segment operating performance measures evaluated by the Company's CODM. The CODM does not evaluate operating segments using discrete asset information. The Company's operating segments do not record intercompany revenue. The Company does not allocate gains and losses from equity investments, interest and other income, or taxes to operating segments. Except as discussed above regarding the "All other" category, the Company's accounting policies for segment reporting are the same as for the Company as a whole.

The following tables present details of the Company's operating and reportable segments and a reconciliation of the "All other" category (in thousands):

12. INCOME TAXES

The Company's provision for income taxes for the three months ended July 3, 2021, and June 27, 2020, was calculated by applying an estimate of the annual effective tax rate for the full fiscal year to "ordinary" income or loss (pre-tax income or loss excluding unusual or infrequently occurring discrete items) for those respective periods.

The Company's income tax expense was \$13.0 million and \$0.1 million for the three months ended July 3, 2021, and June 27, 2020, respectively. The Company's effective tax rate was 4.3% for the three months ended July 3, 2021, and 0.1% for the three months ended Jule 27, 2020.

The Company's effective tax rate for the three months ended July 3, 2021, differed from the statutory rate primarily due to tax rate differences in foreign jurisdictions, global intangible low tax income ("GILTI"), domestic tax credits generated and discrete tax items recorded during the period. A discrete benefit of \$20.2 million was recorded during the three months ended July 3, 2021. The discrete tax benefit was primarily related to the recognition of previously unrecognized tax benefits due to the expiration of the statute of limitations, tax deductions related to stock-based compensation and tax benefits associated with other non-recurring restructuring activities.

The Company's effective tax rate for the three months ended June 27, 2020, differed from the statutory rate primarily due to tax rate differences in foreign jurisdictions, GILTI, domestic tax credits generated and a discrete tax benefit resulting from a retroactive incentive allowing previously non-deductible payments to be amortized.

13. NET INCOME PER SHARE

The following table sets forth the computation of basic and diluted net income per share (in thousands, except per share data):

	Three Mo	nths Ended
	July 3, 2021	June 27, 2020
Numerator:		
Numerator for basic and diluted net income per share — net income available to common stockholders \$	5 285,626	\$ 96,922
 Denominator:		
Denominator for basic net income per share — weighted average shares	112,026	114,585
Effect of dilutive securities:		
Stock-based awards	1,846	2,166
Denominator for diluted net income per share — adjusted weighted average shares and assumed conversions	113,872	116,751
Basic net income per share \$	5 2.55	\$ 0.85
Diluted net income per share \$	5 2.51	\$ 0.83

An immaterial number of the Company's outstanding stock-based awards was excluded from the computation of diluted net income per share for the three months ended July 3, 2021, and June 27, 2020, because the effect of their inclusion would have been anti-dilutive.

OVERVIEW

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to help the reader understand the consolidated results of operations and financial condition of Qorvo. MD&A is provided as a supplement to, and should be read in conjunction with, our Condensed Consolidated Financial Statements and accompanying Notes to Condensed Consolidated Financial Statements.

Qorvo® is a leader in the development and commercialization of technologies and products for wireless and wired connectivity. We combine highly differentiated technologies, systems-level expertise and manufacturing scale to serve a diverse set of customers a broad portfolio of innovative solutions that enable a more connected world.

The semiconductor industry is experiencing supply constraints for certain items such as capacitors, laminates and silicon. While we expect the industry to address these constraints over time, we have taken strategic actions to provide flexibility in our supply chain. The extent of the impact of the COVID-19 pandemic also remains uncertain, and we will continue to monitor the implications of the pandemic as it relates to these matters.

We design, develop, manufacture and market our products to U.S. and international original equipment manufacturers and original design manufacturers in two operating segments, which are also our reportable segments: Mobile Products ("MP") and Infrastructure and Defense Products ("IDP").

MP is a global supplier of cellular, Ultra Wideband ("UWB"), Wi-Fi and other solutions for a variety of applications, including smartphones, wearables, laptops, tablets and Internet of Things ("IoT").

IDP is a global supplier of RF, system-on-a-chip and power management solutions for applications in wireless infrastructure, defense, Wi-Fi, smart home, automotive and IoT.

These business segments are based on the organizational structure and information reviewed by our Chief Executive Officer, who is our chief operating decision maker ("CODM"), and are managed separately based on the end markets and applications they support. The CODM allocates resources and evaluates the performance of each reportable segment primarily based on operating income. See Note 11 of the Notes to Condensed Consolidated Financial Statements in Part I, Item 1 of this report for additional information regarding our reportable operating segments.

FIRST QUARTER FISCAL 2022 FINANCIAL HIGHLIGHTS:

- Revenue for the first quarter of fiscal 2022 increased 41.0% as compared to the first quarter of fiscal 2021, driven primarily by higher demand for our 5G mobile solutions and Wi-Fi products, partially offset by lower demand for our base station products.
- Gross margin for the first quarter of fiscal 2022 was 49.2% as compared to 41.4% for the first quarter of fiscal 2021, primarily due to lower intangible
 amortization expense as well as lower unit costs on higher volume and productivity. Lower inventory charges and improved product mix also
 contributed to gross margin expansion.
- Operating income was \$297.1 million for the first quarter of fiscal 2022 as compared to \$92.7 million for the first quarter of fiscal 2021. This increase
 was primarily due to higher revenue and gross margin, partially offset by higher operating expenses. Operating expenses increased primarily due to
 higher personnel costs, partially offset by lower intangible amortization expense.
- Net income per diluted share was \$2.51 for the first quarter of fiscal 2022 as compared to \$0.83 for the first quarter of fiscal 2021.
- Capital expenditures were \$65.2 million for the first quarter of fiscal 2022 as compared to \$29.8 million for the first quarter of fiscal 2021.
- On May 5, 2021, our Board of Directors authorized a new share repurchase program to repurchase up to \$2.0 billion of our outstanding common stock, which included approximately \$236.9 million authorized under the prior program terminated concurrent with the new authorization. During the first quarter of fiscal 2022, we repurchased approximately 1.7 million shares of our common stock for approximately \$300.0 million under the prior and current share repurchase programs.
- We completed the acquisition of NextInput, Inc. ("NextInput") for a total purchase price of \$173.4 million, including cash acquired of \$5.8 million.

Revenue increased primarily due to higher demand for our 5G mobile solutions and Wi-Fi products, partially offset by lower demand for our base station products. The higher demand for our 5G mobile solutions was driven by the continued 5G smartphone ramp and associated content increases with our largest customers. The increased demand for our Wi-Fi products was in support of hybrid work- /learn-from-home and other connectivity trends.

Gross margin increased primarily due to lower intangible amortization expense as well as lower unit costs on higher volume and productivity. Lower inventory charges and improved product mix also contributed to gross margin expansion.

Operating expenses increased primarily due to additional headcount associated with the design and development of our UWB solutions and biotechnology testing solutions as well as the acquisitions of NextInput and 7Hugs Labs S.A.S. ("7Hugs"). Incentive-based cash compensation and stock-based compensation expense also increased, partially offset by lower intangible amortization expense and lower acquisition and integration-related expenses.

Interest expense

During the three months ended July 3, 2021, we recorded interest expense of \$16.2 million, which was partially offset by \$0.9 million of capitalized interest. During the three months ended June 27, 2020, we recorded interest expense of \$19.9 million, which was partially offset by \$1.1 million of capitalized interest. See Note 7 of the Notes to Condensed Consolidated Financial Statements for additional information.

Other income, net

During the three months ended July 3, 2021, and June 27, 2020, we recorded income of \$14.5 million and \$15.7 million, respectively, based on our share of investments in limited partnerships' earnings.

Income tax expense

Our provision for income taxes for the three months ended July 3, 2021, and June 27, 2020, was calculated by applying an estimate of the annual effective tax rate for the full fiscal year to "ordinary" income or loss (pre-tax income or loss excluding unusual or discrete items) for those respective periods.

During the three months ended July 3, 2021, we recorded income tax expense of \$13.0 million which was comprised primarily of tax expense related to domestic and international operations generating pre-tax book income, partially offset by tax benefits related to international operations generating pre-tax book losses, domestic tax credits and discrete tax items recorded during the period. The discrete tax benefit was primarily related to the recognition of previously unrecognized tax benefits due to the expiration of the statute of limitations, tax deductions related to stock-based compensation and tax benefits associated with other non-recurring restructuring activities.

During the three months ended June 27, 2020, we recorded income tax expense of \$0.1 million which was comprised primarily of tax expense related to international operations generating pre-tax book income, partially offset by a tax benefit related to domestic and international operations generating pre-tax book losses, domestic tax credits and the recognition of a discrete tax benefit resulting from a retroactive incentive allowing previously non-deductible payments to be amortized.

A valuation allowance remained against certain domestic and foreign net deferred tax assets as it is more likely than not that the related deferred tax assets will not be realized.

LIQUIDITY AND CAPITAL RESOURCES

Cash generated by operations is our primary source of liquidity. As of July 3, 2021, we had working capital of approximately \$1,670.4 million, including \$1,200.2 million in cash and cash equivalents, compared to working capital of approximately \$1,802.2 million, including \$1,397.9 million in cash and cash equivalents as of April 3, 2021.

Our \$1,200.2 million of total cash and cash equivalents as of July 3, 2021, includes approximately \$1,100.4 million held by our foreign subsidiaries, of which \$976.7 million is held by Qorvo International Pte. Ltd. in Singapore. If the undistributed earnings of our foreign subsidiaries are needed in the U.S., we may be required to pay state income and/or foreign local withholding taxes to repatriate these earnings.

Stock Repurchases

During the three months ended July 3, 2021, we repurchased approximately 1.7 million shares of our common stock for approximately \$300.0 million, including transaction costs, under our prior and current share repurchase programs. As of July 3, 2021, approximately \$1,714.0 million remained available for repurchases under the current program.

Cash Flows from Operating Activities

Operating activities for the three months ended July 3, 2021, generated cash of \$341.6 million, compared to \$214.3 million for the three months ended June 27, 2020, primarily due to increased profitability, partially offset by changes in working capital.

Cash Flows from Investing Activities

Net cash used in investing activities was \$228.0 million for the three months ended July 3, 2021, compared to \$23.3 million for the three months ended June 27, 2020. This decrease in cash flows was primarily due to the acquisition of NextInput. See Note 4 of the Notes to Condensed Consolidated Financial Statements for additional information regarding our business acquisitions.

Cash Flows from Financing Activities

Net cash used in financing activities was \$311.4 million for the three months ended July 3, 2021, primarily due to our stock repurchases. See Note 8 of the Notes to Condensed Consolidated Financial Statements for additional information regarding our stock repurchases. Net cash provided by financing activities was \$229.8 million for the three months ended June 27, 2020, primarily due to the proceeds received from the issuance of an additional \$300.0 million aggregate principal amount of our 4.375% senior notes due 2029. See Note 7 of the Notes to Condensed Consolidated Financial Statements for additional information regarding our long-term debt.

COMMITMENTS AND CONTINGENCIES

<u>Credit Agreement</u> On September 29, 2020, we and certain of our U.S. subsidiaries (the "Guarantors") entered into a five-year unsecured senior credit facility pursuant to a credit agreement (the "2020 Credit Agreement") with Bank of America, N.A. acting as administrative agent and a syndicate of lenders. The 2020 Credit Agreement amended and restated our previous credit agreement dated as of December 5, 2017 (the "2017 Credit Agreement"). The 2020 Credit Agreement includes a senior term loan (the "2020 Term Loan") of up to \$200.0 million and a senior revolving line of credit (the "Revolving Facility") of up to \$300.0 million (collectively the "Credit Facility").

On the closing date of the 2020 Credit Agreement, we repaid the remaining principal balance of \$97.5 million on the previous term loan under the 2017 Credit Agreement and concurrently drew \$200.0 million under the 2020 Term Loan.

Pursuant to the 2020 Credit Agreement, we may request one or more additional tranches of term loans or increases to the Revolving Facility, up to an aggregate of \$500.0 million and subject to securing additional funding commitments from the existing or new lenders. The Revolving Facility includes a \$25.0 million sublimit for the issuance of standby letters of credit and a \$10.0 million sublimit for swing line loans. The Credit Facility is available to finance working capital, capital expenditures and other general corporate purposes. Outstanding amounts are due in full on the maturity date of September 29, 2025, subject to scheduled amortization of the 2020 Term Loan principal prior to the maturity date as set forth in the 2020 Credit Agreement. During the three months ended July 3, 2021, there were no borrowings under the Revolving Facility.

The 2020 Credit Agreement contains various conditions, covenants and representations with which we must be in compliance in order to borrow funds and to avoid an event of default. As of July 3, 2021, we were in compliance with these covenants.

<u>2029 Notes</u> On September 30, 2019, we issued \$350.0 million aggregate principal amount of our senior notes due 2029 (the "Initial 2029 Notes"). On December 20, 2019, and June 11, 2020, we issued an additional \$200.0 million and \$300.0 million, respectively, aggregate principal amount of such notes (together with the Initial 2029 Notes, the "2029 Notes"). Interest on the 2029 Notes is payable on April 15 and October 15 of each year at a rate of 4.375% per annum. The 2029 Notes are senior unsecured obligations of the Company and are guaranteed, jointly and severally, by the Guarantors.

<u>2031 Notes</u> On September 29, 2020, we issued \$700.0 million aggregate principal amount of our senior notes due 2031 (the "2031 Notes"). Interest on the 2031 Notes is payable on April 1 and October 1 of each year at a rate of 3.375% per annum. The 2031 Notes will mature on April 1, 2031, unless earlier redeemed in accordance with their terms. The 2031 Notes are senior unsecured obligations of the Company and are guaranteed, jointly and severally, by the Guarantors.

For additional information regarding our long-term debt, see Note 7 of the Notes to Condensed Consolidated Financial Statements.

Capital Commitments As of July 3, 2021, we had capital commitments of approximately \$121.3 million primarily for increasing manufacturing capacity, expanding capability to support new products, equipment and facility upgrades, and cost savings initiatives.

Euture Sources of Funding Our future capital requirements may differ materially from those currently projected and will depend on many factors, including the long-term impact of the COVID-19 pandemic on our business, financial conditions, results of operations, and cash flows, as well as market acceptance of and demand for our products, acquisition opportunities, technological advances and our relationships with suppliers and customers. Based on current and projected levels of cash flow from operations, coupled with our existing cash, cash equivalents and our Credit Facility, we believe that we have sufficient liquidity to meet both our short-term and long-term cash requirements. However, if there is a significant decrease in demand for our products, or in the event that growth is faster than we anticipate, operating cash flows may be insufficient to meet our needs. If our existing liquidity is not sufficient to meet our future requirements or if we perceive conditions to be favorable, we may seek additional debt or equity financing. We cannot be sure that any additional debt or equity financing, if required, will be available on favorable terms, if at all.

Legal We are involved in various legal proceedings and claims that have arisen in the ordinary course of business that have not been fully adjudicated. We accrue a liability for legal contingencies when we believe that it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. We regularly evaluate developments in our legal matters that could affect the amount of the previously accrued liability and record adjustments as appropriate. Although it is not possible to predict with certainty the outcome of the unresolved legal matters, it is the opinion of management that these matters will not, individually or in the aggregate, have a material adverse effect on our consolidated financial position or results of operations. The aggregate range of reasonably possible losses in excess of accrued liabilities, if any, associated with these unresolved legal matters is not material.

Net loss from continuing operations

Net loss

<u>Taxes</u> We are subject to income and other taxes in the United States and in numerous foreign jurisdictions. Our domestic and foreign tax liabilities are subject to the allocation of revenues and expenses in different jurisdictions. Additionally, the amount of taxes paid is subject to our interpretation of applicable tax laws in the jurisdictions in which we operate. We are subject to audits by tax authorities. While we endeavor to comply with all applicable tax laws, there can be no assurance that a governing tax authority will not have a different interpretation of the law than we do or that we will comply in all respects with applicable tax laws, which could result in additional taxes. There can be no assurance that the outcomes from tax audits will not have an adverse effect on our results of operations in the period during which the review is conducted.

SUPPLEMENTAL PARENT AND GUARANTOR FINANCIAL INFORMATION

In accordance with the indentures governing the 2029 Notes and the 2031 Notes (together, the "Notes"), our obligations under the Notes are fully and unconditionally guaranteed on a joint and several unsecured basis by the Guarantors, which are listed on Exhibit 22 to this Quarterly Report on Form 10-Q. Each Guarantor is 100% owned, directly or indirectly, by Qorvo, Inc. ("Parent"). A Guarantor can be released in certain customary circumstances. Our other U.S. subsidiaries and our non-U.S. subsidiaries do not guarantee the Notes (such subsidiaries are referred to as the "Non-Guarantors").

The following presents summarized financial information for the Parent and the Guarantors on a combined basis as of and for the periods indicated, after eliminating (i) intercompany transactions and balances among the Parent and Guarantors, and (ii) equity earnings from, and investments in, any Non-Guarantor. The summarized financial information may not necessarily be indicative of the financial position and results of operations had the combined Parent and Guarantors.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes to our market risk exposures during the first quarter of fiscal 2022. For a discussion of our exposure to market risk, refer to Item 7A, "Quantitative and Qualitative Disclosures About Market Risk," contained in Qorvo's Annual Report on Form 10-K for the fiscal year ended April 3, 2021.

ITEM 4. CONTROLS AND PROCEDURES.

As of the end of the period covered by this report, the Company's management, with the participation of the Company's Chief Executive Officer (CEO) and the Chief Financial Officer (CFO), evaluated the effectiveness of the Company's disclosure controls and procedures in accordance with Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our CEO and CFO concluded that the Company's disclosure controls and procedures were effective, as of such date, to enable the Company to record, process, summarize and report in a timely manner the information that the Company is required to disclose in its Exchange Act reports, and to accumulate and communicate such information to management, including the Company's CEO and the CFO, as appropriate, to allow timely decisions regarding required disclosure.

There were no changes to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended July 3, 2021, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1A. RISK FACTORS.

In addition to the other information set forth in this report and in our other reports and statements that we file with the SEC, careful consideration should be given to the factors discussed in Part I, Item 1A., "Risk Factors" in Qorvo's Annual Report on Form 10-K for the fiscal year ended April 3, 2021, which could materially affect our business, financial condition or future results. The risks described in Qorvo's Annual Report on Form 10-K and Quarterly Reports on Form 10-Q are not the only risks that we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

On May 5, 2021, we announced that our Board of Directors authorized a new share repurchase program to repurchase up to \$2.0 billion of our outstanding common stock, which included approximately \$236.9 million authorized under the prior program terminated concurrent with the new authorization. Under this new program, share repurchases are made in accordance with applicable securities laws on the open market or in privately negotiated transactions. The extent to which we repurchase our shares, the number of shares and the timing of any repurchases depends on general market conditions, regulatory requirements, alternative investment opportunities and other considerations. The program does not require us to repurchase a minimum number of shares, does not have a fixed term, and may be modified, suspended or terminated at any time without prior notice.
