RFMD Appoints Alan Hallberg as Chief Marketing Officer

GREENSBORO, N.C., Oct. 24, 2012 (GLOBE NEWSWIRE) -- RF Micro Devices, Inc. (Nasdaq:RFMD), a global leader in the design and manufacture of high-performance radio frequency components and compound semiconductor technologies, today announced the appointment of Alan Hallberg as the Company's corporate vice president and chief marketing officer (CMO). In the role of CMO, Mr. Hallberg will oversee RFMD's global marketing activities and will be based in RFMD's growing Silicon Valley, CA, location. He will report to RFMD's president and CEO Bob Bruggeworth.

Mr. Hallberg is a seasoned industry veteran with extensive experience in marketing and branding at technology leaders including Lenovo, Cisco, and Apple. Most recently, he served as vice president, global brand communications at Lenovo, where he led a two-year global re-branding and marketing effort that contributed to the company's rise from #4 to the world's #1 PC maker.

Commenting on the appointment, Mr. Bruggeworth said, "We are pleased to welcome Alan to RFMD as chief marketing officer. His extensive industry experience is well suited to growing RFMD's global marketing activities and communicating our product and technology leadership to current and new audiences."

Mr. Hallberg said, "I am thrilled to join a world-class innovator in the rapidly growing market for mobile Internet and always-on broadband connectivity. RFMD is leading the way with breakthrough products and technologies that enable true innovation at the enterprise and consumer device level, and I'm excited to lead their global marketing team to help drive growth."

Mr. Hallberg graduated from Pomona College and holds a law degree from the University of Virginia. He lives in Palo Alto, CA, with his wife and two sons.

About RFMD

RF Micro Devices, Inc. (Nasdaq:RFMD) is a global leader in the design and manufacture of high-performance radio frequency components and compound semiconductor technologies. RFMD's products enable worldwide mobility, provide enhanced connectivity and support advanced functionality in the mobile device, wireless infrastructure, wireless local area network (WLAN or WiFi), cable television (CATV)/broadband, Smart Energy/advanced metering infrastructure (AMI), and aerospace and defense markets. RFMD is recognized for its diverse portfolio of semiconductor technologies and RF systems expertise and is a preferred supplier to the world's leading mobile device, customer premises and communications equipment providers.

Headquartered in Greensboro, N.C., RFMD is an ISO 9001-, ISO 14001-, and ISO/TS 16949-certified manufacturer with worldwide engineering, design, sales and service facilities. RFMD is traded on the NASDAQ Global Select Market under the symbol RFMD. For more information, please visit RFMD's web site at www.rfmd.com.

This press release includes "forward-looking statements" within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, statements about our plans, objectives, representations and contentions and are not historical facts and typically are identified by use of terms such as "may," "will," "should," "could," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential," "continue" and similar words, although some forward-looking statements are expressed differently. You should be aware that the forward-looking statements included herein represent management's current judgment and expectations, but our actual results, events and performance could differ materially from those expressed or implied by forward-looking statements. We do not intend to update any of these forward-looking statements or publicly announce the results of any revisions to these forward-looking statements, other than as is required under the federal securities laws. RF Micro Devices' business is subject to numerous risks and uncertainties, including variability in operating results, risks associated with the impact of global macroeconomic and credit conditions on our business and the business of our suppliers and customers, our reliance on a few large customers for a substantial portion of our revenue, the rate of growth and development of wireless markets, our ability to bring new products to market, our reliance on inclusion in third party reference designs for a portion of our revenue, our ability to manage channel partner and customer relationships, risks associated with the operation of our wafer fabrication, molecular beam epitaxy, assembly and test and tape and reel facilities, our ability to complete acquisitions and integrate acquired companies, including the risk that we may not realize expected synergies from our business combinations, our ability to attract and retain skilled personnel and develop leaders, variability in production yields, raw material costs and availability, our ability to reduce costs

and improve margins in response to declining average selling prices, our ability to adjust production capacity in a timely fashion in response to changes in demand for our products, dependence on gallium arsenide (GaAs) for the majority of our products, dependence on third parties, and substantial reliance on international sales and operations. These and other risks and uncertainties, which are described in more detail in RF Micro Devices' most recent Annual Report on Form 10-K and other reports and statements filed with the Securities and Exchange Commission, could cause actual results and developments to be materially different from those expressed or implied by any of these forward-looking statements.
