## **RFMD(R) to Showcase Rapidly Expanding Portfolio of RF Solutions at 2014 Mobile World Congress in Barcelona**

GREENSBORO, N.C., Feb. 20, 2014 (GLOBE NEWSWIRE) -- RF Micro Devices, Inc. (Nasdaq:RFMD), a global leader in the design and manufacture of high-performance radio frequency solutions, today announced the Company will present its expanding portfolio of industry-leading radio frequency (RF) solutions for smartphones, tablets and other broadband mobile devices at the 2014 Mobile World Congress (MWC 2014), to be held February 24 to February 27, 2014, in Barcelona, Spain.

The products highlighted by RFMD at MWC 2014 will include its rapidly growing portfolio of high-performance 4G solutions. RFMD anticipates growth in 4G RF components will outpace smartphone unit growth, with the increasing adoption of envelope tracking, carrier aggregation, and antenna tuning. RFMD has established clear market leadership in these next-generation RF technologies and is broadly engaged with the leading smartphone manufacturers and chipset providers to enable widespread consumer adoption.

RFMD offers the industry's broadest portfolio of high-performance RF solutions covering all major air interface standards, including average power tracking- (APT-) and envelope tracking- (ET-) enabled multimode multi-band (MMMB) and discrete PAs, APT and ET PMICs, antenna tuners, impedance tuners, routing switches, low noise amplifiers (LNAs), antenna switch modules (up to 21 throws), switch filter modules, and switch duplexer modules. RFMD is leveraging its deep engineering resources to combine its best-in-class products and technologies into complete RF front end solutions that are tailored to each individual customer application.

RFMD will also display its expanding portfolio of Wi-Fi components for smartphones and consumer premises equipment, including routers, access points and set-top boxes.

### **About RFMD**

RFMD (Nasdaq:RFMD) is a global leader in the design and manufacture of high-performance radio frequency solutions. RFMD's products enable worldwide mobility, provide enhanced connectivity, and support advanced functionality in the mobile device, wireless infrastructure, wireless local area network (WLAN or Wi-Fi), cable television (CATV)/broadband, Smart Energy/advanced metering infrastructure (AMI), and aerospace and defense markets. RFMD is recognized for its diverse portfolio of semiconductor technologies and RF systems expertise and is a preferred supplier to the world's leading mobile device, customer premises, and communications equipment providers. RFMD is an ISO 9001-, ISO 14001-, and ISO/TS 16949-certified manufacturer with worldwide engineering, design, sales and service facilities. This press release includes "forward-looking statements" within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, statements about our plans, objectives, representations and contentions and are not historical facts and typically are identified by use of terms such as "may," "will," "should," "could," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential," "continue" and similar words, although some forward-looking statements are expressed differently. You should be aware that the forward-looking statements included herein represent management's current judgment and expectations, but our actual results, events and performance could differ materially from those expressed or implied by forward-looking statements. We do not intend to update any of these forward-looking statements or publicly announce the results of any revisions to these forward-looking statements, other than as is required under the federal securities laws. RF Micro Devices' business is subject to numerous risks and uncertainties, including variability in operating results, the inability of certain of our customers or suppliers to access their traditional sources of credit, our industry's rapidly changing technology, our dependence on a few large customers for a substantial portion of our revenue, our ability to implement innovative technologies, our ability to bring new products to market and achieve design wins, the efficient and successful operation of our wafer fabrication facilities, assembly facilities and test and tape and reel facilities, our ability to adjust production capacity in a timely fashion in response to changes in demand for our products, variability in manufacturing yields, industry overcapacity and current macroeconomic conditions, inaccurate product forecasts and corresponding inventory and manufacturing costs, dependence on third parties and our ability to manage channel partners and customer relationships, our dependence on international sales and operations, our ability to attract and retain skilled personnel and develop leaders, the possibility that future acquisitions may dilute our shareholders' ownership and cause us to incur debt and assume contingent liabilities, fluctuations in the price of our common stock, additional claims of infringement on our intellectual property portfolio, lawsuits and claims relating to our products, security breaches and other similar disruptions compromising our information and exposing us to liability and the impact of stringent environmental regulations. These and other risks and uncertainties, which are described in more detail in RF Micro Devices'

most recent Annual Report on Form 10-K and other reports and statements filed with the Securities and Exchange Commission, could cause actual results and developments to be materially different from those expressed or implied by any of these forward-looking statements.
