## **RFMD(R) To Showcase Industry-Leading High Performance RF Components At 2011 IEEE International Microwave Symposium**

GREENSBORO, N.C., June 1, 2011 (GLOBE NEWSWIRE) -- RF Micro Devices, Inc. (Nasdaq:RFMD), a global leader in the design and manufacture of high-performance radio frequency components and semiconductor components, today announced the Company will showcase its broad portfolio of industry-leading products and technologies for the wireless and wired broadband markets at the 2011 IEEE International Microwave Symposium (IMS) in Baltimore, Maryland, from June 6 to June 8, 2011.

At the symposium, RFMD® will highlight its portfolio of innovative products servicing a diverse range of end-market segments including: Broadband Transmission, Defense and Aerospace, Point-to-Point Microwave Radio, WiFi, Wireless Infrastructure, Wireless Consumer Products, WiMAX and SmartEnergy.

The RFMD products to be displayed span the Company's broad portfolio, including:

- A variety of revolutionary GaN-based products, including RFMD's high power transistors and ICs
- The RFMD2080/81 world-class IQ modulators with integrated LO oscillators, designed for Point-to-Point and other software defined radio applications
- Point-to-Point products including Up/Down Converters, MMIC VCOs and other products addressing the RF and IF functions of the Point-to-Point radio transceiver
- The newly released RFSA2714 and RFSA2724 digital step attenuators and the RFSA2013 and RF2023 voltage controlled attenuators, optimized for cellular 3G/4G/LTE and WiMAX markets
- RFMD's portfolio of highly integrated multi-chip modules (MCMs) for wireless infrastructure applications

Additionally, RFMD will introduce its 2011-2012 Product Selection Guide, which features specifications for over 900 products including over 90 recently released products targeting multiple end-market applications. The new 63-page guide allows customers to cross-reference and search products using end market application diagrams.

RFMD employees presenting papers, chairing sessions and hosting proceedings at the Symposium will represent the Company's Broadband Components, Defense and Power, Wireless Connectivity, Wireless Products, and Foundry Services business units.

RFMD will be exhibiting at the IEEE International Microwave Symposium (IMS) 2011, June 6-8, at the Baltimore Convention Center, in Booth 1402.

### **About RFMD**

RF Micro Devices, Inc. (Nasdaq:RFMD) is a global leader in the design and manufacture of high-performance radio frequency components and compound semiconductor technologies. RFMD's products enable worldwide mobility, provide enhanced connectivity and support advanced functionality in the cellular handset, wireless infrastructure, wireless local area network (WLAN), CATV/broadband and aerospace and defense markets. RFMD is recognized for its diverse portfolio of semiconductor technologies and RF systems expertise and is a preferred supplier to the world's leading mobile device, customer premises and communications equipment providers.

Headquartered in Greensboro, N.C., RFMD is an ISO 9001- and ISO 14001-certified manufacturer with worldwide engineering, design, sales and service facilities. RFMD is traded on the NASDAQ Global Select Market under the symbol RFMD. For more information, please visit RFMD's web site at [www.rfmd.com](http://www.rfmd.com).

This press release includes "forward-looking statements" within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, statements about our plans, objectives, representations and contentions and are not historical facts and typically are identified by use of terms such as "may," "will," "should," "could," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential," "continue" and similar words, although some forward-looking statements are expressed differently. You should be aware that the forward-looking

statements included herein represent management's current judgment and expectations, but our actual results, events and performance could differ materially from those expressed or implied by forward-looking statements. We do not intend to update any of these forward-looking statements or publicly announce the results of any revisions to these forward-looking statements, other than as is required under the federal securities laws. RF Micro Devices' business is subject to numerous risks and uncertainties, including variability in operating results, risks associated with the impact of global macroeconomic and credit conditions on our business and the business of our suppliers and customers, our reliance on a few large customers for a substantial portion of our revenue, the rate of growth and development of wireless markets, our ability to bring new products to market, our reliance on inclusion in third party reference designs for a portion of our revenue, our ability to manage channel partner and customer relationships, risks associated with the operation of our wafer fabrication, molecular beam epitaxy, assembly and test and tape and reel facilities, our ability to complete acquisitions and integrate acquired companies, including the risk that we may not realize expected synergies from our business combinations, our ability to attract and retain skilled personnel and develop leaders, variability in production yields, raw material costs and availability, our ability to reduce costs and improve margins in response to declining average selling prices, our ability to adjust production capacity in a timely fashion in response to changes in demand for our products, dependence on gallium arsenide (GaAs) for the majority of our products, dependence on third parties, and substantial reliance on international sales and operations. These and other risks and uncertainties, which are described in more detail in RF Micro Devices' most recent Annual Report on Form 10-K and other reports and statements filed with the Securities and Exchange Commission, could cause actual results and developments to be materially different from those expressed or implied by any of these forward-looking statements.
