

We are Qorvo®

Qorvo At-A-Glance

- 8,500+ global employees
- Fiscal year 2023 revenue: \$3.6 billion
- Nasdaq: QRV0, an S&P 500 Company
- Innovative connectivity and power solutions
- Competitive advantages in manufacturing, product and technology leadership, engineering, customer relationships
- Providing solutions for diverse, high-growth segments of large global markets

Qorvo supplies innovative semiconductor solutions that make a better world possible. Qorvo's connectivity and power technology maximize efficiency in consumer electronics and in applications for smart home/IoT, automotive, electric vehicles, battery-powered appliances, network infrastructure, healthcare and aerospace/defense. The Company combines product and technology leadership, systems-level expertise and global manufacturing scale to solve its customers' most complex technical challenges.

Key Applications Automotive | Biotechnologies | CATV Networks | 4G & 5G Cellular Networks | Customer Premises Equipment (Wi-Fi Set-top Boxes & Gateways/Routers | Data Storage | Defense & Aerospace | Enterprise Networks (Wi-Fi Access Points) | Electric Vehicle | Human-Machine Interface (HMI) | Industrial Power | Intelligent Motor Control | IoT Networking & End-Nodes (Bluetooth®, Zigbee & Matter™) | Mobile Devices | NB-IoT | Radar | Satellites

Key Products Amplifiers | Analog/Mixed-signal Power Solutions | Antenna Control Solutions | Communication SoCs (Systems on a Chip) | Control Products | Discrete Components | Filters & Duplexers | Frequency Converters | Integrated Modules | Mobile Wi-Fi Solutions | Multiplexers | Oscillators | RF Fusion™ & RF Flex™ Solutions | RF MEMS | Silicon Carbide FETs & JFETs | Switches | Ultra-wideband (UWB) Solutions

Recognized by the Global Semiconductor Alliance as the Most Respected Public Semiconductor Company*

*Companies with \$1 billion to \$5 billion in annual revenue

Centered on Customers

Qorvo helps customers by solving RF and power complexity. Only Qorvo offers all core technologies needed to deliver highly integrated solutions that help connect, protect and power the planet. The company brings 30+ years of end-to-end expertise, from the network to the device.

Centered on Innovation

Qorvo brings unique strengths to innovative solutions for diverse, high-growth segments of large global markets. The company serves diverse high-growth segments of large, global markets, including consumer electronics, smart home/IoT, automotive, EVs, battery-powered appliances, network infrastructure, healthcare and aerospace/defense.

Manufacturing Scale

Support large customers with high-volume manufacturing expertise

Product Leadership

Design and build high-value RF and power solutions to stringent customer demands

Systems Knowledge

Diverse engineering expertise spanning process, product and packaging technologies

Customer Relationships

Trusted supplier capable of solving customers' largest technical challenges
