## **TriQuint Semiconductor Announces CEO Ralph Quinsey To Present At 10th Annual Needham Growth Stock Conference**

**HILLSBORO, OR (USA) – January 3, 2008** - TriQuint Semiconductor, Inc. (Nasdaq: TQNT) announced today CEO Ralph Quinsey will present at the 10th Annual Needham Growth Stock Conference on Wednesday, January 9th, 2007 at 8:30 AM. The conference will be held at The New York Palace Hotel.

TriQuint's presentation will be available live and, subsequently, on demand via the Internet. The Webcast link for investors to listen to management's remarks can be found on the Investors section of the Company's website at [www.triquint.com](http://www.triquint.com).

Investors should visit the site at least 10 minutes prior to the beginning of the scheduled presentation to register, download and install any necessary multimedia streaming software. The software plug-ins required for the live event can be either RealPlayer or Windows Media Player.

### **FACTS ABOUT TRIQUINT**

Founded in 1985, we "Connect the Digital World to the Global Network"™ by supplying highperformance RF modules, components and foundry services to the world's leading communications companies. Specifically, TriQuint supplies products to four out of the top five cellular handset manufacturers, and is a leading gallium arsenide (GaAs) supplier to major defense and space contractors. TriQuint creates standard and custom products using advanced processes that include gallium arsenide, surface acoustic wave (SAW) and bulk acoustic wave (BAW) technologies to serve diverse markets including wireless handsets, base stations, broadband communications and military. TriQuint is also lead researcher in a 3-year DARPA program to develop advanced gallium nitride (GaN) amplifiers. TriQuint, as named by Strategy Analytics in August 2007, is the number-three worldwide leader in GaAs devices and the world's largest commercial GaAs foundry. TriQuint has ISO9001 certified manufacturing facilities in Oregon, Texas, and Florida and a production plant in Costa Rica; design centers are located in North America and Germany.
